Feed the Birds

Hang some of these lovely bird feeders around your garden and attract lots of new birds.

You can have fun spotting the different bird visitors.

You will need: some solid vegetable fat like Trex or Lard, a pine cone, bird seed, a child's knife, some wool or string.

- Tie a piece of wool or string to the top of your cone so that you can tie this to a branch outside when you have made your bird feeder.
- Use the knife to push the fat between the layers of the cone.
- Pour some bird seed into a tray.
- Roll your cone in the bird seed so that the seed sticks to the fat.
- Hang your bird feeder outside.
