Blow Painting

You will need paper, straw, paints of various colours and lots of puff!

- It is a good idea to slightly water down your paint so that it is easier to blow.
- Drip some blobs of paint onto your paper. Different colours look good when they mix together.
- Use your straw to blow the paint around. What happens when two colours mix together?

At Tots at the Top we used our pictures to make calendars for the New Year. All we had to do was add some wool at the top to make a loop to hang up the calendar and then stick on a small calendar
