### Make a Humpty Shape Head

You will need: an old sock, felt or any material to cut out ears, nose, mouth etc, a feather, newspaper, glue.

- Stuff an old sock with newspaper so it is half full.
- Twist the remaining half of the sock round a couple of times to keep the paper in and then fold the sock over itself onto the stuffed sock. You should have a ball shape now.
- Now use the felt or old material to cut out features for the face. We used circles for eyes, a rectangle for the mouth, a triangle for the nose and squares for the ears. Stick them on.
- We stuck a feather on the top of the head for hair but you could use wool.
